The keying chart/schedule is only needed if there is a master key system in place. If not, and the cylinder is just a stand alone lock, we can replace it with medeco stand alone.

Please confirm this is the direction you would like to go.

Thanks

Best Regards,

Scott,

I can create a memo no problem, I already have the one for the Schlage keys that I can modify. I do have some questions for you though, what is a keying chart and keying schedule and the key code that the new lock will need to be keyed to? I don't understand what you are asking and Google is not helping much with that we just have a lock box and a key inventory not a system. We do need about 12 keys for the entrance as one 1 person has one every VIP, CG,

DCG, CSM, CXO CoS, DSoS, and others will want one and I will need two extras, one for the facility key box and one for the CMD suite key box. Let me know and I will keep looking for the other questions.

Very Respectfully,

Mark

Hi Mark
Can you help us with this?

In order to get the new keys for the Generals entrance we need to:

- 1) Letter from the army base stating that Advanced Security Safe and Lock has permission to purchase medico cylinders and keys on their behalf .
- 2) The keying chart and keying schedule
- 3) The key code that the new lock will need to be keyed to
- 4) How many key copies you would like?

Very Respectfully,

Hi Scott ,

I just got off the phone with Advanced security . They need the following from you in order to repair the door lock CSS# 30585 . Advanced can't purchase these cylinders . Please provide the below in yellow to us , then we can proceed .

In order for us to be able replace/rekey this cylinder we will need the following:

1) Letter from the army base stating that Advanced Security Safe and Lock has permission to purchase medico cylinders and keys on their behalf .

2) The keying chart and keying schedule

3) The key code that the new lock will need to be keyed to

4) How many key copies you would like

Thanks

Rick

Good Afternoon,

Any chance we can get pictures to send to Advanced to avoid having to make a trip out there for an estimate? See Avners email below.

Thank you,

Mary Lowery

Mary,

Is there any way you can have a picture of the door and lock cylinder sent over along with a picture of the current key being used?

Best Regards,

Avner Shotz

Good morning,

Please inform your techs that it is mandatory to wear face coverings and follow social distancing CDC guidelines. (see email attachment).

We have a new request that came in for one of our sites in Virginia and I was wondering if you would be able to head out to the site and provide us with a quote for repair? Please respond to this email notification so we know you have received.

SOW: Re-key lock to main entryway double glass doors.

Please let me know a date and time that works best for you and we will coordinate with the onsite POC.

We will also need a "BEFORE" picture provided with your quote if repairs will be more than \$450.00.

Please also see attached Certificate of Work (COW) form that needs to be filled out completely and signed by your Technician and the facility POC upon completion of the site visit along with picture of the completed work.

NOTE: This is only approval for your tech to work on this scope of work. IF site personnel requests other work to be completed outside of stated work -please ask them to put a service call request in with the AFOS or RFOS and then we can get their concerns addressed -Thank you

Thank you,

Mary Lowery
