Hi Scott , Team ,  
Update on Emergency call at VA048 --Tech (Jason) called me and gave the below update: See attached pictures .

- It is NOT a hot wire: it is a telephone wire, still connected on each end (he traced both ends to check)
- It is drooping, approx. 10 feet (at least) off the ground but not in the way of anything.
- They will quote to re-secure, will need a scissor lift.

\*\*pictures are attached\*\*

He said he expects we should receive a quote tomorrow.

Gabby nice job on response time !!!!!!!

Thanks,  
Rick
