**WORK PERFORMED/UNIT INFO.**

*Arrived on site, checked in with customer. Verified water wass turned off to device. Disassembled device and the inside of preventer is very rusty. Removed and replaced all seals in backflow preventer. Turned on water and it was still leaking. Took everything apart and all the seals had rust in them. Cleaned and put back together. Done this many times throughout the day and could not get device not to discharge water. Backflow preventer must be replaced. Will quote out replacement.*
