DESCRIPTION OF EQUIPMENT:

TROUBLESHOOTING POLE LIGHTS

DESCRIPTION OF PROBLEM & REPAIRS:

Technician met with Jamie and found 2 pole lights that are not functioning properly. Technician was informed that the lights are flickering on and off very quickly. However, the rest of the pole lights appear to be operational. Each pole is independently controlled by photocells. It's possible that the photocells are starting to fail (least likely) or that the driver/array is failing. Will submit a proposal to bring a lift to site and troubleshoot the pole lights. If repairs are possible on that day, we will make them. If not, we will submit a proposal for approval to order the correct parts and return to make repairs.

MATERIAL, EQUIP OR PARTS

| | | | | |
|-----------|-----------------------|------|------------|------------------|
| Lift | Quantity | 1.00 | Sell price | \$ 600.00 |
| Truck Fee | | 1.00 | | \$ 55.00 |
| | Material Total | | | \$ 655.00 |
