

Region: 5

Location: VA099

CSS #: 21944

Maximo Work Order No.: 11246

Asset #: NA

Date Issued: 10/22/19

Original Description:

Short or fault in outside building lighting. The breaker for the outside building lighting keeps tripping due to a fault and or issue with a ballast. find the short and repair so that the lighting is operating properly. This includes the lighting for the Flag

Repairs Needed:

Moore's is proposing to return to site. Will remove and replace four wall packs on site. Once the new wall packs are installed, will test and ensure proper operation. Per vendor, there are no replacement parts available for these particular style/brand of lights. Complete wall pack replacement is the only option in order to keep all wall pack lighting the same on site. Customer is responsible for any and all restocking charges that apply should the quote be cancelled after Moore's has received approval

DESCRIPTION OF EQUIPMENT:

Wall Pack replacements

DESCRIPTION OF PROBLEM:

Moore's electrician on site found the wall pack that was causing the breaker to trip. Electrician removed that fixture. There is also another wall pack that is out and should be replaced. Found two wall packs that are flashing and the manufacturer of these particular wall packs does not offer parts replacement. If customer would like to have the same style wall packs, then will need to replace all four wallpacks in question.

DESCRIPTION OF REPAIRS:

Moore's is proposing to return to site. Will remove and replace four wall packs on site. Once the new wall packs are installed, will test and ensure proper operation. Per vendor, there are no replacement parts available for these particular style/brand of lights. Complete wall pack replacement is the only option in order to keep all wall pack lighting the same on site.

Customer is responsible for any and all restocking charges that apply should the quote be cancelled after Moore's has received approval
