Problems

Description	Tech	Equip. Desc and Model	Manufacturer	Equip. Serial	Asset ID
BACKFLOW TEST	BRADWILLIA				

Tech Notes

Tech: BRAD WILLIAMS, Date: 2/28/20 9:31 AM - Drove to site and checked in with Christopher. Found back flow device in mechanical room and performed annual test. Device failed due to relief valve not opening and #2 check valve failing. Per existing tag on device, the last time it was tested was 4/26/12 and it failed then as well for same reasons. Will quote to install complete rebuild kit. Did paperwork and checked out.
