

Region: 5

Location: VA006

CSS #: 26360

Maximo Work Order No.: 12757

Asset #: NA

Date Issued: 1/11/21

Original Description: The Pole light in parking lot is flickering located next to the building but on the corner of the parking lot

Repairs Needed:

Moore's is proposing to replace the head with the latest version of the current style. There is time included for additional troubleshooting, due to being unable to troubleshoot on the day of the service call. Any repairs unable to be completed in the allotted time will be submitted for approval.

DESCRIPTION OF EQUIPMENT:

Pole Head

DESCRIPTION OF PROBLEM:

The customer has a pole head that is described as "flickering on and off." Due to nobody being on site with keys to the electrical room, tech was not able to properly diagnose the issue. The description of the problem sounds very similar to the problem with the other pole lights that had to be replaced. Tech believes that it is highly likely that the new problem head needs to be replaced as well. Spoke with Mary and she authorized quoting to replace the head.

DESCRIPTION OF REPAIRS:

Moore's is proposing to replace the head with the latest version of the current style. There is time included for additional troubleshooting, due to being unable to troubleshoot on the day of the service call. Any repairs unable to be completed in the allotted time will be submitted for approval.

*Customer is responsible for any and all non-returnable items and/or restocking charges that apply, should the quote be cancelled by the customer, or the scope of work changes in any way after Moore's has received approval.
