DE002	CSS# 29043 WO# 13831 Asset# NA							
Description of Repairs	S&S propose to complete the following; shut water off in the building and rain down the system in order to cut in the tees to tap off of for new filter lines. Then cut 2 tees on both 1 ¼ hot water supply from holding tank and 1 ½ recirc line coming back to the holding tank. S&S will run ¾ lines with isolation valves from new tees and install filter housing on both lines. S&S will then turn water back on and fill all lines, bleed air out and check all new work is working and building water is back operational.							
Diagnosis: Initial Work Order	(1 housing)- Filters that will need separate ¾" piping and bracing run to install the housings (discharge and suction taps will need to be located or installed)--- with ¾"shut off valves to isolate filter so service can be performed.							
Diagnostic Fee	\$ 100 Labor \$100/hr x 1							
Additional Labor Cost to Perform Repairs	\$ 1400 Labor \$100/hr x 14							
Additional Material Cost to Perform Repairs	\$ 847.17 <table border="1"><tr><td>Parts</td><td>1</td><td>847.18</td><td>847.18</td></tr></table>				Parts	1	847.18	847.18
Parts	1	847.18	847.18					
Total Cost of Repair	\$ 2347.18

Problem: Need to quote (1 housing)- Filters that will need separate $\frac{3}{4}$ " piping and bracing run to install the housings (discharge and suction taps will need to be located or installed)--- with $\frac{3}{4}$ " shut off valves to isolate filter so service can be performed.

S&S herby proposes to complete the following:

S&S will shut water of in the building and drain down the system in order to cut in the tees to tap off of for new filter lines.

S&S will cut in 2 tees on both $1\frac{1}{4}$ hot water supply from. Holding tank and $1\frac{1}{2}$ recirc line coming back to the holding tank.

S&S will run $\frac{3}{4}$ lines with isolation valves from new tees and install filter housing on both lines.

S&S will then turn water back on and fill all lines, bleed air out and check all new work is working and building water is back operational.
