### **DESCRIPTION OF EQUIPMENT:**

Men and Women's Restroom

### **DESCRIPTION OF PROBLEM:**

Arrived on site. Met with Carlos to unlock doors and show what area the bathrooms were in. The light in the men and women's restrooms were not working in the motor pool building . Voltmeter showed power to the fixture but no power on the load side of the ballast. The lamps in the fixture also appear to be burned out as well due the black ends on the lamps. Called to get the NTE increased but it was denied and wanted quote for repair.

### **DESCRIPTION OF REPAIRS:**

Moore's is proposing to replace the ballast in each fixture as well as the lamps in each fixture. There will be 2- 4 lamp T8 ballast and 8-T8 lamps. Moore's will package and ship the old lamps per environmental regulations.

\*Customer is responsible for any and all non-returnable items and/or restocking charges that apply, should the quote be cancelled by the customer, or the scope of work changes in any way after Moore's has received approval.
