DESCRIPTION OF EQUIPMENT:

Telephone Cable

DESCRIPTION OF PROBLEM:

Drove to site and checked in with Gabby via telephone. Was not provided with a POC for call. Had to wait for Gabby to reach out to site and find the right person. Met with Van Tran on site who showed tech the wire in question. Traced out both ends of wire and found they terminate on telephone circuitry. Determined wire is low voltage telephone and is not dangerous. Took pictures of terminations, wire hanging down, and messenger cable. Also found another wire that runs with cabling. Traced out and found it is fiber optic.

DESCRIPTION OF REPAIRS:

Moore's is proposing to resecure phone wire to messenger cable with UV rated cable ties. Will require a scissor lift as the wire is 10-20 feet overhead. An extra man is needed for safety.
