### **DESCRIPTION OF EQUIPMENT:**

Boiler #1 & 2  
Weil McLain  
Model # ULTRA 750

### **DESCRIPTION OF PROBLEM:**

Moore's technician arrived on location, boiler one was down. Found that low water cut off probe is defective and will not close the circuit. I was able to jump that out to allow boiler to run. Manufacturer has three other safeties in place for over temperature and/or low flow applications and will shut Boiler down if this event occurs. Having low water cut off out of the circuit will not affect the boiler operation, this is an add on feature for state or local ordinance and does not affect the overall operation if it's removed from the system during a failure. They have none in stock and will need to be quoted, Repair cost will go over our NTE amount.

### **DESCRIPTION OF REPAIRS:**

Moore's is proposing to return to site and: Remove and replace the low water cutout controls and gauges for boiler #1 and #2. Once repairs are completed, we will start, test and ensure proper operation of the unit.

\*Parts have an estimated 2-3-week lead time\*

### **MATERIAL, EQUIP OR PARTS**

		Quantity		Sell price
Low water cut out		2.00	\$	638.40
Gauge		2.00	\$	187.20
Freight		1.00	\$	60.00
Truck Fee		1.00	\$	55.00
		<b>Material Total</b>		\$ 940.60

### **LABOR ITEMIZED**

In consideration of Moore's Electrical & Mechanical extending credit to the above applicant, the undersigned hereby personally guarantees unconditionally and irrevocably. The compliance of all terms of the application and agreement, including the payment of any sums within the net terms agreed upon between the customer and Moore's, plus any additional costs such as a 1.5% monthly interest charge starting once an invoice becomes 30 days past due, service charges, legal fees and any means taken in order to collect debt. If it is deemed necessary to litigate, it is agreed that the County or District Court of Campbell County, Virginia shall be the venue of any suit. This guarantee shall remain in full force unless and until notice in writing is sent certified mail and received by Moore's Electrical & Mechanical. Said notice cannot be within 14 days of this signed agreement. Initial service request ran with a Not to Exceed amount of \$500.00 (five hundred dollars).

Thank You

MANDATORY WATER TREATMENT - ULTRA-GAS  
You MUST add the included Sentinel X100 inhibitor to the  
system to prevent damage to the boiler's heat exchanger.  
Follow inhibitor installation instructions and adjust to the  
proper pH level.

**WARNING**

Failure to comply with installation  
instructions may result in accelerated  
corrosion of the heat exchanger and  
system components.
