Priority: Emergency

Original Work Request:

Repair power-facility has lost a phase (already worked with power company - they confirmed this is on our end).

Description of Repairs Needed:

Labor and material to a.) remove & replace (2) 480 Volt to 208 Volt 3-phase transformers, b) remove & replace (1) motor starter control for air compressor, c) test for proper operation, d) clean up and properly dispose of all debris generated at job site. When Tri-City went back out to confirm parts discovered that the transformers are on Mon Powers side. TC3 techs showed Mon Power which transformers are out. They ran tests on equipment with Mon Power. Mon Power took care of their issue. 5/5/25 Notified and received confirmation the power is back on.
