Description

WO#: 13831

CSS Ticket Number: 29043

Problem: Need to quote (1 housing)- Filters that will need separate 3/4" piping and bracing run to install the housings (discharge and suction taps will need to be located or installed)--- with 3/4" shut off valves to isolate filter so service can be performed

02/24/2021 Work Note

After speaking with John from CMI. The filters don't have anything to do with the chemical add tanks they are just put there at other locations for convenience. This location does not have that so they need to be cut into the hit water lines. Quote sent to Adam/Rick.
