## INVOICE NO. 75922

**Job Name:** 13323  
**Site:** MD019 Greenspring Avenue  
**Site Address:** 12100 Greenspring Avenue  
 Owings Mills MD 21117

### Description

**WO# 13323**

**CSS Ticket Number: 28042**

**Problem:** Power Jet Storage line and pump out one tank load out of the septic tank, pending quote from S&S.

S&S proposes to furnish jet machines and labor to clean main waste lines starting from the restroom (farthest toilet) out to septic tanks.

- Jetting will be performed downstairs (restrooms) only whereas this is where issues have been found on every service from back - ups.
- Pull the farthest away toilet and start jetting from here to each clean - out until we exit through the inlet of the septic tank.
- Once jetting is completed, S&S will have a septic tank pumped up to #2500gal. will have pumped from the bottom of the tank.

### 12/22/2020 Work Note

Used jetting machine to clean sewer pipes ran underground. Jetted from the bathroom wall cleanout and floor drains. Made multiple passes into the sewer to clean pipe walls and wash out any lingering debris.

Met pump truck operator outside at underground sewer tank location. He was able to pump out about 700 gallons before his equipment malfunctioned and was unable to pump anymore out. We need to schedule them to come back out to finish pumping the tank. Mopped floor and wiped down bathrooms once completed with jetting the sewers.

### 01/05/2021 Work Note

Waited for pump truck to come and service the septic tanks in the back of the property. The arrived way passed the window they gave us but once onsite they did pump out the tanks and complete the job. Work complete.
