Certificate of Calibration Backflow Test Gage

We hereby certify that the differential pressure gage referenced here has been cleaned and recalibrated to ± 2 psi of full scale accuracy on descending readings for the listed calibration points. The gage has been calibrated on air at room temperature and hydrostatically tested to 125 psig.

Manufacturer BackflowMeter Model TK-136 Serial No. 464880

Gage	Calibration Standard
1 PSID	1.91
2 PSID	2.02
5 PSID	5.00
10	9.95
15	14.84

The primary standards are high accuracy test instruments. These standards are certified to be accurate by their respective manufacturers. The manufacturers masters are traceable to the National Institute of Standards and Technology.
