Subject: USARC Work Request CSS 34767 WO 16779 MD002 Additional Efforts WO 16924

Tina please PDF and upload to 16924

CAUTION: This email has been received from outside of CMI - Use caution before clicking on links, opening attachments, or responding.

This work is considered part of the original scope of work. We want to make sure John Brown can access all of the controllers. Also test AHU-1 scheduling from the supervisor station which was unable to be verified yesterday.

Daniel Hainey
BAS Integrator | Energy
THE TUSTIN GROUP

[EXTERNAL]
Thanks Tara.

So was the original scope of work completed or do a couple other things need to be done to call this complete?

In regard to additional work, can you please confirm what you are referencing?

Unless the government provides us with a CSS request we are not authorized to quote or perform any additional work.

Thank you,
Mary Lowery

Good Afternoon,

Please see the attached form that was filled out by Dan. In addition, I would like to schedule a time for Dan to get back to address a few loose ends and look at another potential job. Please let me know if Wednesday 4/13 or Wednesday 4/20 would work for you.

Thanks so much. Have a great day!

Hi Tara.

I forgot to send this over to you- can you please have your technician fill this out and get it signed (while onsite if possible).

If he isn't able to get it signed from a tablet etc, please have him fill it out and we can send it over to have it e-signed after the fact.

Thank you,
Mary Lowery

Good Morning All,

Our technician Dan is not onsite, however he is working on this project. The new controller needs programmed and licensed which he is taking care of today. He also had to upgrade the existing station software from AX to N4. Tomorrow, he will mount it, move the wires and should be good to go.

Please let me know if you need anything further. Thank you.

Subject: USARC Work Request CSS 34767 WO 16779 MD002

Good Morning,

Please inform your techs that it is mandatory to wear face coverings and follow social distancing CDC guidelines. (see email attachment).

We have a new request that came in for one of our sites (MD002) in Baltimore and I was wondering if you would be able to head out to the site and provide us with a quote for repair? Please respond to this email notification so we know you have received.

SOW: VAV Boxes on first floor / exhaust fans are not communicating on building automation screen -Need Tustin

Site address: 700 E. Ordinance Rd. BALTIMORE, MD

Please let me know a date and time that works best for you and we will coordinate with the onsite POC.

We will also need a “BEFORE” picture provided with your quote if repairs will be more than \$450.00.

NOTE: This is only approval for your tech to work on this scope of work. IF site personnel requests other work to be completed outside of stated work -please ask them to put a service call request in with the AFOS or RFOS and then we can get their concerns addressed -Thank you

Please confirm you have received this email.

Thank you,

Mary Lowery
