Problem: Main gas leak on the exterior of the building, 2" steel gas line.

S&S proposes to uncover and make necessary repairs on already detected leaks. All removed dirt will be packed back in within the excavated area once leaks are repaired and deemed not leaking any longer.

S&S is not responsible for fixing any leaks other than what was detected and observed by S&S for repairs. If additional leaks are found, S&S will investigate and offer a quote to repair additional leaks.
