Rick,

I needed to adjust some of these numbers as I think my guy gave me some wrong numbers yesterday over the phone. Here is the updated quote, see the below email for price verification.

Dave,

I need some price verification for my client as we can only mark up our cost 20%, just reply all with our NET cost and product model numbers.

1 each—stainless steel 10" filtration housing
1 box (24 each) - 10 micron, pleated high temp filters (10")
1 each- stainless housing gasket

Thanks!
