Problem: Power Jet Storage line and pump out one tank load out of the septic tank, pending quote from S&S.

S&S proposes to furnish jet machines and labor to clean main waste lines starting from the restroom (farthest toilet) out to septic tanks.

- Jetting will be performed downstairs (restrooms) only whereas this is where issues have been found on every service from back - ups.
- Pull the farthest away toilet and start jetting from here to each clean - out until we exit through the inlet of the septic tank.
- Once jetting is completed, S&S will have a septic tank pumped up to #2500gal. will have pumped from the bottom of the tank.
