S&S Mechanical is providing this quote to CMI for the backed-up sewer line for the building.

- S&S will cut a 12x12 hole in the cinderblock wall, to create an access way to the clogged pipe.
- S&S will provide the large snake machine and a technician to clear stopped up main line to septic system.
- S&S will ensure main line is clear of all obstructions and flush with clean water.
- S&S will open building back up for full operation once main is clear and all work complete.
