| Description of Repairs | Repair Telephone Intercom at the White Plains MD066 Facility. |
| Original SC Investigative Diagnosis | **$650.00** |
| Diagnosis: Initial Work Order | As per original diagnostic LoCurrent arrived on site, found Units described as "AiPhones" to instead be non-functional Telephone-based Telephone Intercoms. Telephone Intercom Units were found to be non functional due to the fact there were no telephone lines connected.<br><br>LoCurrent Systems will provide a Follow Up Quotation to test for dial-tone in TER Room and make cross connects that will need to end at the Rear Gate location and begin in Main Building 1st Floor TER Room. Dial-tone must then be verified at Telephone Intercom locations for complete operation at the White Plains, MD USARC MD066. |
