Note: Due to possible unforeseen issues that have been identified from performing the testing procedures, we have proposed to only clean the severely restricted coil. The service history and details of the faults and failures is an unknown as found in work by other firms that have placed the equipment in jeopardy by bypassing electronic controllers and other possible operational and safety devices. This Chiller is not operational at this time. Elite Comfort group has provided the 99th Regiment a detailed proposal indicating the remedy to the chiller. Please see attached photos.

If this proposal is acceptable, please sign and return to us

Sincerely,

President
Rich@EliteComfortGroup.com

THE ABOVE PROPOSAL IS ACCEPTED AND AGREED TO, INCLUDING ALL PAYMENT TERMS
