|---|--|
| Description of Repairs                      | The contractor will remove the latching duress button and replace it with a push-on push-off button and connect it to the existing wiring system. In the event this will not work with the current circuit contractor will provide new reset tethered tool for the current system, Both part options cost the same. CNTR will be able to return unused option. |
