FEMS/CSS No.: 3189958

Maximo WO No.: 19178

Asset #:

Priority: 3

Original Work Request:

Two of the latrines need to be pumped out (B and C) located in the bivouac area as indicated on the attached map. Approximately 3,000 gallons will need to be pumped from each latrine. Also, both latrines will need to be deodorized. Recommend Contractor: Powell Sanitation

Description of Repairs Needed:

Proposal is to pump, haul and dispose of 6,000 gal of waste and deodorize latrines. Contractor notes that these latrines are very large and 3,000 gal will unlikely empty either one.
