DATE 1/31/23

TOOLS USED Hand tools

MATERIALS USED 1: Honeywell Actuator (ordered)

DESCRIPTION OF WORK PERFORMED Removed the old actuator off of the AHU and installed the new one. Wired it the same as the old actuator. Made sure the dampers were set to have the return air open and the fresh air shut, and it was holding it there and would move as needed. While I was working on the office AHU I walked back into the drill hall and noticed it was slightly cool in there and looked up to see the actuator open more towards the fresh air side. I have no access to the control system here today to see what the controls are calling for and if I can switch them. Spoke to Cindy and Scott to contact the controls and have them make adjustments on their side. I disconnected the armature going to the actuator for the time being since the weather is going to be so cold. Dampers are set to just return and no outside air currently. Unit is running okay at this time.

CERTIFICATION OF WORK
(To be completed by the Contractor and saved in the Contractor's CMMS)

FACID/Building: PA062 Date of Visit: 1/31/23

Contractor Personnel on Site:

1. Tom Timlin 2. _____

Work Performed:

Preventive Maintenance - Services Completed (Annual, Quarterly, Monthly, equipment identification, etc.)

1. _____

Service Calls – Service Call Number and Description

1. CSS# 91050. Office AHU MA damper replacement
2. CSS# 91051. Replaced the actuator on the Drill Hall AHU
3. CSS# _____

CERTIFICATION OF WORK

To be signed by the Contractor:

Print Name: Tom Timlin Date: 1/31/23

Signed: 

To be signed by Facility Manager:

By signing the Certification of Work, I certify that the above-named individuals representing the Contractor arrived on site and to the best of my knowledge, completed the stated work listed.
This is NOT a Certification that the Work was performed correctly – The COW simply verifies that that someone representing the Contractor was onsite and accomplished something
