SOW: 6) POV Parking lot Lights are out.

S&S proposed to install 3 LED drivers and 3 photo cells for parking lot lights.

After approval S&S discovered to get all pole lights 100 % operational we would need a total of 22 photo cells and 15 LED drivers. Possible power surge took place.

From the time it took between originally diagnoses and approval, we found issue had grown into now needing a total 22 photo cells, 15 drivers.
