### DESCRIPTION OF EQUIPMENT:

Pole Lights  
WO 11287 / CSS 22663

### DESCRIPTION OF PROBLEM:

Moore's electrician on site found that there are 6 lights out and 2 lights that are dim in the motor cage lot. Found that there are 4 lights out in the front parking lot, along with 2 out in the back parking lot. Will need to make repairs by replacing all drivers for these lights.

### DESCRIPTION OF REPAIRS:

Moore's is proposing to return to site in order to replace all drivers for 14 total lights that are out on site. Will remove old drivers and replace with new. Please note that a lift will be required in order to complete this service. Once complete will test and ensure proper operation.

\*IF found that the issue is more than the drivers and that the actual fixtures are bad, a revised proposal will be submitted for replacements at that time.

\*\*Customer is responsible for any and all restocking charges that apply should the quote be cancelled after Moore's has received approval.
