Description of Repairs

Solving why exterior lights on the front of the building and two wall packs on the right side of the building were out. Diagnose the power for the main electrical panel to the lights and they have power to each light determined that the lights were bad. Checked with the person at the unit and they relayed that they could not tell me if all when out at once or over time.

Recommendation: To replace all four lights 2 wall packs and 2 parking lot lights.
