**Service Call Number**

CSS# 95726 WO# 14306

**Description of Repairs**

Located boiler and performed inspection on boiler per manufacture spec. Changed flame rods and performed combustion.

Found boiler slightly out of range. Recommend cleaning flushing heat exchanger. Boiler control board will not stop cycling through parameters and

cannot edit set points. Boiler is operating too warm and cannot currently be turned down internally. Called manufacture to get part numbers then called supply house

to get a quote for parts. Also recommend replacing boiler relief valve as it is corroding from previous leaks. Cleaned up and checked out.

---

**CERTIFICATION OF WORK**

To be signed by the Contractor:

Print Name: Julie Pape Date: 3/14/24

Signed: *Julie Pape*
