WORK PERFORMED/UNIT INFO.

Picked up Eli at Tamarack and drove to Galax and checked in and he started getting old compressor out while I went to roof and started work on the air handler had to remove bad contactor and overload block and had to replace bad phase monitor and fan status ct and set it up. Then helped with get new compressor in and leak checked system all was fine then put on vac pump and let it pull down to 450 microns and the charged unit with 16LBS of 410A and checked charging chart and all looked fine cleaned up work area and put tools back on van and went back inside and made sure that bldg. was cooling down all was good.
