☐ Leak Repaired

Method: \_\_\_\_\_

Total Charge: \_\_\_\_\_

**WORK PERFORMED/UNIT INFO.**

Picked up materials and equipment from the warehouse and the supply house. Arrived on site, checked in with customer. This repair has to be made with the cold water supply turned off and they were already people onsite and it was not communicated for the building to be empty. We tried to work something out to clear the building but are not able to. We rescheduled for next Monday so the people can properly be notified to not come in. Unloaded the materials and equipment at the job site for when I return.
