**WORK PERFORMED/UNIT INFO.**

*Got on site and checked in with customer. Checked in with Amy to see what AHU's needed looked at replacing. Was the hallway mechanical room AHU system. AHU, condenser, and VAV's. I got the info off of the AHU and then got ahold of Matt to let him know he's gonna need to stop by with R&I to check this job out given the scope of work. Packed up and left after that. Amy called a little while later and said it was actually the shop AHU's that needed looked at. I advised her i'd swing back by tomorrow to check it out.*
