Total Charge: _____

WORK PERFORMED/UNIT INFO

Arrived on site, checked in with customer. Turned off the building water supply, then started opening up the sinks in the building to drain the line. After I believed the line was drained I then drilled a hole into the pipe where its being replaced to confirm. As I was about to cut it I realized that I did not have the couplings needed, went and picked them up from the supply house. Cut out the bad fitting and the pipe and measured for the new pieces. Test fit all of the joints to verify everything was correct then proressed all of the joints. Turned the building supply back on and purged the air from the system. Made sure everything on the water line was functioning properly. Cleaned up the work area and checked out with the customer. Returned the
