Original Work Request:

The current DDC controls computer is needed at this location as well as a JACE upgrade and software. Currently this computer is locked out and we cannot adjust the temperatures. Recommended Contractor: Drew Investment Group (630) 776-7372

Description of Repairs Needed:

Provide onsite support to remove outdated Trane BCU and all connected devices to the Vykon JACE onsite, including the electric/gas meter connected to MDMS JACE. Drew will update the JACE software to the 4.12 and create new EBCS approved graphics at the local Vykon JACE level, integrate the facility to the EBCS Supervisor at Ft. Liberty and provide EBCS approved Reflow graphics at both levels. Drew will replace the local computer interface w/ an approved laptop w/ wired mouse for local access to system. See Scope of Work for Inclusions and Exclusions for proposal. All hardware and services warranty for 1 year from install date.
