Performed quarterly scheduled service visit.

#### Hot Water Loop

Online 

Corrosion inhibitor residual is low, attached chemical feed pump to hose bib on system and added 1/4 gallon of BOND 5011 treatment for additional corrosion protection.

#### Chill Water Loop

Online 

Corrosion inhibitor residual is low, attached chemical feed pump to hose bib on system and added 1/4 gallon of BOND 5011 treatment for additional corrosion protection.

Bond Water Technologies, Inc. recommends that you perform regular and/or daily analysis to control chemical levels and cycles of concentration within established limits. Test results reflect conditions during the point in time when the analysis was performed. Additional testing may be performed upon request. As operating conditions vary, test results will change over time. In no event shall Bond Water Technologies, Inc. be liable for any incidental, direct or indirect, consequential or special damages of any kind.
