### **DESCRIPTION OF EQUIPMENT:**

Make: Trane  
Model: CGAFC604ARA1000DE0000000000W00  
Serial: C09E14916

### **DESCRIPTION OF PROBLEM:**

Technician arrived on site and met with Tony Craig. Got access to mechanical room and checked pump and chiller. Contactor for compressor had welded contacts, causing compressor not to cut off making water too cold and eventually tripping breaker. Broke contacts loose and checked compressor to make sure it worked. It ran and was drawing 17 amps. Shut compressor off and let others run. Will quote contactor and two auxiliary contacts.

### **DESCRIPTION OF REPAIRS:**

Technician will return to site to replace faulty contactor. Start, test and ensure proper unit operations.
