Details

Hoover Fence Company's Chain Link Single Track Aluminum Slide Gates, sometimes called 'Top-Track Cantilever Gates' are of the highest quality cantilever gates available in the industry. Single track aluminum slide gates are designed for gate opening up to 30' wide. If you have a larger opening to secure, you can utilize two kits (with minor modification) to secure an opening up to 60' wide! If your opening is larger than this, we recommend you look into our Double Track Aluminum Slide Gates.

If you are looking to secure a gate opening and install an access control system, then this gate is the perfect candidate for automation with a slide gate operator (or opener). The high quality hardware that is included with this kit ensures smooth sliding for years to come. An added bonus is that the track seals the trolley assemblies from the elements so snow and ice will not bind up the moving parts.

Custom sized gates can be quoted for nearly any height of chain link fence. We can also build gates to match 3', 3-1/2', 4', 5', 7', and 8' heights. If you need a quote for one of these or a special width, please [contact us](#) for a quote.

#### **Complete Single Track Slide Gate Kits Include:**

- Single Track Aluminum Slide Gate - Available In: 12', 14', 16', 18', 20', 22', 24', 26', 28', 30' Widths
- (2) Trolley Support Posts with Post Caps (4" Typical)
- (1) Latch Post with Post Cap (4" Typical)
- (2) Trolley Hanger Brackets
- (2) Slide Gate Trolleys
- (2) Bottom Guide Roller Assemblies
