Good Morning All,

Please see Aprils e-mail below regarding CSS 29376- they were unable to complete the work yesterday due to the boxes taking up the floor in the butler building. Rick asked me to send this over to you all as he is on a site visit to MD066 today.

Thank you,
Mary Lowery

Mary –

My guys went out to complete this work yesterday and were unable to work due to the building being full of boxes!

We will need to reschedule this work for when the room has been emptied. Please note that we have labor time incurred for going to site as well as a charge for the lift rental incurred. Should we revise the quote to show the incurred labor and lift charge? How would you like us to proceed? I've placed the technician's notes below for reference.

Tech: CHARLES GRESHAM, Date: 5/4/21 - I gathered materials at supply house prior to going to site.

We arrived on site and tried to get ahold of Mark Anderson. It took several calls and some time to reach him. He informed us that the building is full of computers and that he forgot to inform Mary (Tidewater) that the floor was covered. He sent somebody to let us in to see if we could work around them. We cannot. Pictures show that almost the entire floor is covered.

We will have to return another time to complete.

Thank You,

April J. Goodwin

Good Afternoon Mary –

I've processed this approval and sent it over to our parts department to order the needed parts. Once we have an ETA on parts, I will work with you to get this scheduled.

Thank You,

Good Morning April & Arbry!

Have we received parts for WO's 13868, 13865, or 12757 yet? If not, do we have an ETA?

Thank you,

Mary Lowery
