**RE: Jurisdictional Inspection:**  
International Support Group  
363 Luby St  
Grafton, WV 26354-1688

Thank you for the consideration I received during my visit on August 1, 2019 at your facility listed above. The purpose of the visit was to perform non- jurisdictional inspections of the objects listed below to determine compliance with ASME/National Board standards and regulations. I was accompanied by MSGT Fowler during my visit.

The inspections were performed on behalf of International Support Group (US Army Reserve Offices).

The following objects were inspected at the time of the visit:

Year Built	Type of object	Jurisdictional Number	NB Number	Recommendation(s)
2011	Cast Iron	WV014 BLR	WV014BLR	None

The following observations were noted during the inspection of this equipment:

*Boiler was inspected externally and found free of defect or damage. Required safety devices are installed and appear to be in good working order. Pressure relief device was tested and found satisfactory.*

As a result of this inspection 0 new recommendations were suggested.

Based upon this visit, a OneCIS Operating Certificate for the boiler is being created and forwarded to the client.

The next inspection is tentatively scheduled to be completed by 08/2020.

Please contact me by phone at 571-373-0998 or by e-mail at [william.johnson@onecis.com](mailto:william.johnson@onecis.com) if there are any questions or if I may be of further assistance.

Sincerely,

*William Garth Johnson*
