

SPX Cooling Technologies Certification of Limited Warranty

SPX Cooling Technologies, Inc. ("SPX Cooling") warrants that your Marley® System 5™ Geareducer®, filled with Marley Gearlube™, when properly installed and maintained according to the Geareducer User Manual, will be free from failure related to oxidation or loss of lubricity for a period of five-years from the date of shipment by SPX Cooling to the original installation. The obligation under this warranty is limited to the repair or replacement of failed components, resulting from oil degradation, at SPX Cooling's option, F.O.B. original shipping point or EXWORKS plant. This warranty does not obligate SPX Cooling to bear the cost of labor, transportation charges, or other costs incurred in connection with the repair or replacement of failed components; nor does this warranty apply to normal wear and tear.

The Marley Gearlube need not be changed during the 5-year warranty period. However, in accordance with the User Manuals, scheduled maintenance is required to check oil level, check for leaks in oil plugs, lube line connections, seals, and correct as necessary during that time.

This warranty applies only to the initial owner and is not extendable past the initial 5-year period.

Failure of SPX Cooling to exercise or enforce any right or provision under this warranty shall not constitute a waiver of such right or provision.

SPX Cooling's total liability for damages related to the performance of or failure to perform shall be limited to the amount of the contract price and in no event shall either party hereto be responsible or held liable to the other for any special, punitive, indirect, incidental, or consequential damages.

The above warranties are in lieu of all other warranties expressed or implied, and all implied warranties of merchantability and fitness for a particular purpose are hereby disclaimed and excluded from this agreement.

Registration of this warranty is required within 90 days of installation of your product to validate the warranty. Registration will also ensure receipt of the latest product information and owner notices. To register go to spxcooling.com/en/registration and complete the form.
