

## PREVENTATIVE MAINTENANCE PROGRAM CHECKLIST

### ICE MAKER

**SITE AND BLDG #:** NY128 - 01 Main Building

**MECHANIC**

**SIGNATURE:** *Christopher N Pothier* **DATE:** 11 - 25 - 19

**LOCATION/RM #:** Kitchen **WO#** 5865 **ASSET #** 10804

**START TIME:**

**FINISH TIME:**

| CHECK POINT                                | CHECKPOINT DESCRIPTION                                                                                                                  | TASK COMPLETE |    | NOTES/ ACTIONS<br>(IF TASK COMPLETE IS CHECKED NO, PROVIDE EXPLANATION) |
|--------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------|---------------|----|-------------------------------------------------------------------------|
|                                            |                                                                                                                                         | YES           | NO |                                                                         |
| SPECIAL INSTRUCTIONS                       |                                                                                                                                         |               |    |                                                                         |
| 1                                          | Review manufacturer's instructions.                                                                                                     | X             |    |                                                                         |
| 2                                          | De-energize, lock out, and tag electrical circuits.                                                                                     | X             |    |                                                                         |
| 3                                          | If appliance is disposed, follow regulations concerning removal of refrigerants and disposal of the appliance.                          | X             |    |                                                                         |
| 4                                          | If materials containing refrigerants are discarded, comply with EPA regulations as applicable.                                          | X             |    |                                                                         |
| 5                                          | Only approved cleaning chemicals shall be used.                                                                                         | X             |    |                                                                         |
| TO BE PERFORMED AT EACH INSPECTION SERVICE |                                                                                                                                         |               |    |                                                                         |
| 1                                          | Check with operating or area personnel for any deficiencies; verify cleaning program.                                                   | X             |    |                                                                         |
| 2                                          | Visually check for refrigerant, oil and water leaks.                                                                                    | X             |    |                                                                         |
| 3                                          | Inspect ice condition/size.                                                                                                             | X             |    |                                                                         |
| 4                                          | As needed, drain and clean unit with proper ice machine cleaning solution.                                                              | X             |    |                                                                         |
| 5                                          | Check date on water filter, Replace as needed. Water filters should be changed annually at a minimum.                                   |               | X  | Unit does not have a water filter                                       |
| 6                                          | Check and tighten any loose screw-type electrical connections.                                                                          | X             |    |                                                                         |
| 7                                          | Check all controls; adjust if necessary.                                                                                                | X             |    |                                                                         |
| 8                                          | Examine water connection; open and close water valve; test ice dispensing valve and (door) metering adjustment.                         | X             |    |                                                                         |
| 9                                          | Check and clear ice machine draining system (drain vent, strainer, trap).                                                               | X             |    |                                                                         |
| 10                                         | Examine condition of bin doors-closure, hinges, gaskets, handles and ease of slide; lubricate as required. Check storage bin condition. | X             |    |                                                                         |
| 11                                         | Clean motor, compressor, and condenser coil.                                                                                            | X             |    |                                                                         |

Note: The technician shall perform any repairs identified during PM up to \$250 (direct labor and direct material cost) per PM occurrence. For any deficiencies found exceeding \$250 open a corrective maintenance (CM) ticket and include the Asset #, WO #, photos, and a detailed description of the deficiency.

To be performed by: General Maintenance Worker
